Top-notch senior NCO who took a reduction for this position but would be ideal for a position to sew SMSgt back on. She's not only a paralegal, but a personnelist without the AFSC. In addition to her superior performance, she's active in the community, organization and pursuing her masters degree. Definitely continue!

Was kind of surprised that we asked him for input on Smith when he belongs to AFRC. We can discuss it with Gen Lytle at the phonecon.

Subject: ARB Requests - Maj Wilson, Lt Col Smith -- PRIVACY ACT APPLIES

"Sgt Foster:

WRT: Maj Daniel Wilson... Maj Wilson has been helpful getting IMA reserve forces into the counterspace mission area, an important AFRC opportunity. After talking with Col Henry Baird and Col Martin France (the major's AFSPC deputy director and division chief, respectively), I concur with Maj Wilson's request but only for a 2-year extension, or 4 years, if allowable. If extended, he should be reassigned as soon as practical, perhaps to an operational position within the 310th Space Group.

WRT: LtCol Sylvester Smith... LtCol Smith has been helpful getting some additional reserve forces for the SBIRS (space based infrared system) missile attack warning mission; he has also been representing the SBIRS combined task force (CTF) on technical/organizational issues related to the stand-up of the new 460th Space Wing at Buckley AFB, CO, which is supported by AFRC's 8th Space Warning Squadron and IIMAs. I have talked to Col William Possel, SBIRS CTF/CC, and he is pleased with LtCol Smith's efforts and leadership. I therefore concur with the request to extend Lt Col Smith's DOS by two years. However, since we need to cycle other space qualified officers through this important position, I recommend Lt Col Smith be assigned elsewhere in AFRC no later than Jul 2006.

Please advise if you need anything further from me on the above recommendations.

Subject: RE: ARB Requests - Maj Wilson, Lt Col Smith -- PRIVACY ACT APPLIES

Thank you...my mistake and thanks for the clarification... and I believe I understand the differences between the programmatic aspects of this recommendation and member assignment options....

I then non-concur with Major Wilson's present application for career status, but recommend we grant a 1-year extension and he be relooked at during the Sep 05 ARB for career status... While Maj Wilson has achieved good results in getting reservists and AFRC leadership into the counterspace mission area, he still merits further assessment and monitoring before he is entered into career status...A Sep 05 relook would be ideal....

If you need further comments please advise.

Sir,

If we extend Maj Wilson for 2-4 years per your request, he will automatically be entered into career status and be taken to his 20 year active duty date of 2012 anyway. If you do not feel the member should be retained in the program until 2012, I would recommend you only grant a 1 year extension and he can be relooked at the Sept 05 ARB for career status.

Please keep in mind, a DOS extension is programmatic, an extension to 2012 will be in the AGR program, not his current position.

Please let me know if you prefer to concur with the member's request to be granted career status or non-concur and recommend a 1 year extension.

Thanks

v/r

Deannie

SMSgt Foster:

WRT: Maj Daniel Wilson... Maj Wilson has been helpful getting IMA reserve forces into the counterspace mission area, an important AFRC opportunity. After talking with Col Henry Baird and Col Martin France (the major's AFSPC deputy director and division chief, respectively), I concur with Maj Wilson's request but only for a 2-year extension, or 4 years, if allowable. If extended, he should be reassigned as soon as practical, perhaps to an operational position within the 310th Space Group.

Current tour ends 08 Oct 05. To reach an active duty retirement date of 24 Dec 2012, I will need two more 4-year tours plus 2 months and 16 days. My preferences indicate these positions that I am familiar with. If allowed in, I would be glad to stay right here at Lackland AFB TX. If I must leave this position to avoid a move, I'd prefer the Randolph AFB TX position. If I must move, I would do well at the Sheppard AFB TX position. I am also open to other positions that I am not currently aware of, overseas or otherwise.
